## FEATURES AND BENEFITS

### FABRIC

- 1 Front and Back Body: Nike Pro Hypercool technology combines targeted ventilation with lightweight sweat-wicking fabric to help you maintain optimal performance.
- 2 Body: Cooling yarns wick sweat as you perspire to help your skin feel cool and enhance comfort.
- 3 Side Panels: Stretch-woven mesh fabric for added ventilation.
- 4 Gusset: Mesh fabric with Dri-FIT technology enhances breathability.
- 5 Back panel: Mesh fabric across the top of the back yoke to help increase airflow.

### DESIGN

- 6 Elastic waistband features a highly breathable monofilament yarn with tiny spaces in the fabric for extra ventilation. It has a Nike Pro trademark jacquard for a comfortable fit with zero distractions.
- 7 Compressive fit provides support and a locked-down feel.
- 8 Flatlock seams help reduce irritation caused by chafing.
- 9 Jock tag at the center-back waist is heat sealed to eliminate interior seams.
- 10 Swoosh design trademark is screen printed at the lower left leg.
